DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear what is meant by TPP. According to page 7, it means trimethyl phosphite i.e. $P(OPh)_3$; according to page 12, it means triphenylphosphine, i.e. $P(Ph)_3$. Given the structure of III, it is likely that the latter is intended, but the specification must be fixed to resolve this point.

The claim 1 phrase “which forms a basis that....” appears to be a mistranslation of something, although it is not clear what the proper term should be.

The “including” in claim 1 is improper alternative language.

The same is true for the “such as” of claim 2.

The term ‘active thiolester’ is unclear. How does an active one different from an inactive one?

Claim Objections

Claim 10 objected to because of the following informalities: No period at end of claim. Appropriate correction is required.
